103 Lilac St. West Fairview Quezon City

## PROFILE

Experienced React developer with almost 2 years of hands-on experience, spanning from college projects to professional development. Proficient in both frontend and backend technologies, transitioning from PHP to Node.js. Enthusiastic programmer dedicated to continuous learning and improvement. Passionate about crafting elegant solutions and spending significant time coding. Specialized in frontend development, with a foundation in backend technologies

## TECH STACK

HTML	REACT	MYSQL	GIT & GITHUB	NODEJS
CSS	NEXTJS	NESTJS FASTIFY / EXPRESS	TYPESCRIPT	EXPRESS
JAVASCRIPT	VITEJS	POSTGRE	DOCKER	REACT NATIVE EXPO

## PROFESSIONAL EXPERIENCE

### KDT Network and Data Solution Mobile Developer

April 2024 - June - 2024

As a Mobile App Developer, I used React Native and Expo to design and implement the UI/UX of a mobile application. From the first design to the final deployment, this project required end-to-end development. Using a Laravel API, I constructed the backend to guarantee reliable and expandable server-side functionality. By effectively releasing the application on Google Play, I was able to showcase my proficiency in providing comprehensive and operational mobile solutions.

### Homeqube Junior Full Stack Developer

June 2023 - March 2024

I improved the usability and functionality of a blockchain website by contributing to its development. In addition, I worked on a variety of projects within the tech ecosystem as a member of a mobile development team where we developed a mobile application using basic React Native. This experience showed my adaptability and agility.

## EDUCATION & CERTIFICATIONS

**Bachelor of Science in Information Technology**  
QUEZON CITY UNIVERSITY  
2020 - 2024

**ICT/Animation**  
NORTH FAIRVIEW SENIOR HIGH SCHOOL  
2017 - 2019

**Homeqube Certificate of Completion**  
2023 - 2024

## PROJECTS

**Agrihub**

## PROJECTS

### **Agrihub : An Online Data Sharing Platform**

**2023-2024**

*Capstone Project*

<https://agrihub.vercel.app/>

A capstone project where I participated as Frontend Developer

Accomplishments:

- Developed Agrihub, a Progressive Web App (PWA) serving as an online data sharing platform and community hub for farmers in Quezon City.
- Implemented responsive design to ensure farmers can access critical information even in low-connectivity areas.

### **Online Porfolio**

**2024**

*Self-initiated Project*

<https://rodelcrisosto.vercel.app/>

I built a single page portfolio to showcase my proficiency in web development

Accomplishments:

- Developed a single page portfolio website to showcase my proficiency in web development.
- Utilized NextJS + Tailwind to create a visually appealing and responsive design.
- Ensured cross-browser compatibility and optimized performance for various devices.
- Implemented smooth scrolling, interactive elements, and animations to enhance the user experience.

### **Mir4 Combine System**

**2022-2023**

*Self-initiated Project*

<https://mir4combinesystem.netlify.app/>

My very first project I built using only vanilla javascript.

Accomplishments:

- Developed a game-based website using HTML, CSS, and vanilla JavaScript, focusing on the item combining system.
- Implemented complex logic to manage item combinations
- Created engaging animations and interactions to enhance the user experience.
- Managed end-to-end development, from initial concept to final deployment, demonstrating strong problem-solving skills and attention to detail.

### **UAP Mobile 2.0**

**2024**

*Company Project Based*

<https://play.google.com/store/apps/details?id=com.kdt.uapmobile>

The first mobile application that I have published in google play store

Accomplishments:

- Designed and implemented the UI/UX of a mobile application using Figma
- Developed the backend using a Laravel API, ensuring robust and scalable server-side functionality.
- Managed end-to-end development, from initial design to deployment.
- Successfully published the application on Google Play
